#### Fanning maqsadi (FM)

|     |                                                                                                                                                                                                                    |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| FM1 | O'rganilayotgan chet tilini kommunikativ, lingvistik, sotsiolingvistik, diskursiv, strategik, kasbiy, umummadaniy kompetentlikni integrallashgan yondashuv asosida o'qitishdan iborat.                             |
| FM2 | Talabalarni chet tilini faol egallashga o'rgatish, ya'ni dastur asosida berilgan mavzular bo'yicha o'z fikr va mulohazalarini chet tilida bayon eta olish hamda shu tilda bildirilgan fikrlarni anglashdan iborat. |

#### Fanni o'zlashtirish uchun zarur boshlang'ich bilimlar

|    |                                                                                                            |
|----|------------------------------------------------------------------------------------------------------------|
| 1. | Ingliz tili fani yuzasidan umumiy tasavvur va ma'lum bilimlar bazasiga ega bo'lishlari kerak.              |
| 2. | O'rganilgan va o'rganilayotgan til materialidan tashkil topgan qisqa matnlarni o'qiy olishlari kerak.      |
| 3. | Fe'lining hozirgi, o'tgan va kelasi zamon shakllari haqida boshlang'ich tushunchaga ega bo'lishlari kerak. |

|    |                                                                                       |
|----|---------------------------------------------------------------------------------------|
| 4. | Oddiy vaziyatlarda og'zaki va yozma nutqda fikrlarni uzviy ifoda eta olishlari kerak. |
|----|---------------------------------------------------------------------------------------|

| Ta'lim natijalari (TN) |                                                                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                        | Bilimlar jihatidan:                                                                                                                                                                                                                                                                                           |
| TN1                    | Chet tilini Umum Yevropa standartlariga ko'ra B1 darajasida bilim va ko'nikmalarga ega bo'lishi lozim                                                                                                                                                                                                         |
| TN2                    | Talabalar ingliz tilida berilgan umumiy mazmundagi matnlarni eshitib, to'g'ri qabul qilish va o'zlashtirishlari                                                                                                                                                                                               |
| TN3                    | Tanish yoki talabani qiziqtirgan mavzularda sodda gaplar bilan mazmunli matmlar yoza olishi, guvohi bo'lgan voqealar yuzasidan olgan taassurotlari haqida xat yoza olishi kerak.                                                                                                                              |
| TN4                    | Darak, so'roq, bo'lishsiz, buyruq gaplarni turli zamonlarda tuza olishlari                                                                                                                                                                                                                                    |
|                        | Ko'nikmalar jihatidan:                                                                                                                                                                                                                                                                                        |
| TN5                    | Talaba o'rganayotgan ikkinchi chet tilida xuddi ona tilida gaplashgandek gaplasha oladigan kishilar bilan kundalik mavzularda suhbat qura olishi, oila, hobbi, kasbiy faoliyat kabi mavzulardagi suhbatlarga osonlikcha qo'shila olishi hamda o'z fikr-mulohaza, his-tuyg'u va taassurotlarini bildirga olish |
| TN6                    | O'z qiziqishlariga taalluqli mavzuda qisqa, sodda esse yoza olishlari                                                                                                                                                                                                                                         |
| TN7                    | Katta hajimli matnlarni o'qiy oladi, matning turli qismlaridan tegishli ma'lumot yig'a oladi.                                                                                                                                                                                                                 |

| Yakuniy        | 50 ball              | Yozma ish (5 ta savol) yoki                                             | 50 ball<br>(har bir savolga)                | 30 ball       |

| nazorat | Test (50 ta savol) | 10 balldan)<br>50 ball<br>(har bir savolga 1<br>balldan) |
|---------|--------------------|----------------------------------------------------------|
|---------|--------------------|----------------------------------------------------------|

Fan bo'yicha yuqorida keltirilgan nazoratlarda to'plangan reyting umulashtiriladi hamda yakunda ballar 5 baholik tizimga quyidagicha konvertatsiya qilinadi:

- 87-100 ball – 5 (a'lo);
- 73-86 ball – 4 (yaxshi);
- 60-72 ball – 3 (qoniqarli);
- 0-59 ball – 2 (qoniqarsiz)
