

National Goals	National responsibilities	Responsible executors	The achieved results in 2020
<p>Goal 6. Ensure availability and sustainable management of water and sanitation for all.</p>	<p>6.1. By 2030, achieve universal and equitable access to safe and affordable drinking water for all.</p>	<p>Department of Ecology and Life Safety, Department of spiritual and educational work, and work with gifted students, Educational methodical management, Department of scientific researches and training the scientific-pedagogical cadres, Department of Planning and Finance</p>	<p>In cooperation with professors, students and staff of the Department of Ecology and Life Safety of Samarkand State University and the staff of the Department of Ecology and Environmental Protection of Samarkand region, measures were taken to rationally use water resources, pollution, environmental education and culture was formed.</p>
	<p>6.3. By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.</p>	<p>Department of Ecology and Life Safety, Department of spiritual and educational work, and work with gifted students, Educational methodical management, Department of scientific researches and training the scientific-pedagogical cadres, Department of Planning and Finance</p>	<p>The dissertation work on the influence of anthropogenic factors on bivalve mollusks in the Sangzor River is being carried out by Bobomurodov Zokir Abdukakhovich, a basic doctoral student of the Department of Ecology and Life Safety. The main goal is to significantly reduce the pollution of terrestrial waters as a result of human activities, as well as to increase the safe use of wastewater, to preserve biodiversity.</p>
	<p>6.4. By 2030, substantially increase water use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity.</p>	<p>Department of Ecology and Life Safety, Department of spiritual and educational work, and work with gifted students, Educational methodical management, Department of scientific researches and training the scientific-pedagogical cadres, Department of Planning and Finance</p>	<p>In order to significantly increase the efficiency of water use in all sectors of the economy, graduates of the Department of Ecology and Life Safety Phase from second grade of master degree students has increased the number of medicinal leeches and bivalves, improve water quality and conserve biodiversity. Master's dissertations are being completed</p>

	<p>6.5. By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate.</p>	<p>Department of Ecology and Life Safety, Department of spiritual and educational work, and work with gifted students, Educational methodical management, Department of scientific researches and training the scientific-pedagogical cadres, Department of Planning and Finance</p>	<p>In collaboration with the Department of Ecology and Life Safety and the Zarafshan Irrigation Basin Department agreed to work on the use of Zarafshan river water, conservation of hydrobionts in rivers, ensuring the management of water resources, including, if necessary, cross-border cooperation. taken.</p>
	<p>6.6. By 2020, protect and restore water related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes.</p>	<p>Department of Ecology and Life Safety, Department of spiritual and educational work, and work with gifted students, Educational methodical management, Department of scientific researches and training the scientific-pedagogical cadres, Department of Planning and Finance</p>	<p>The Flamingo Student Club has been established at the Department of Ecology and Life Safety. The main purpose of the club is to preserve wetlands, rivers, nature reserves, aquifers and lakes, as well as birds and ecosystems. Club members meet once a week on the last Friday of each month</p>
