About Us

The Faculty of Geography and Ecology is an integral part of Sharof Rashidov Samarkand State University, which boasts a rich history of over 600 years. The faculty trains a new generation of specialists through the integration of exact and natural sciences.

Our Mission

The faculty aims to incorporate the latest scientific achievements into the educational process, particularly in fields such as environmental protection, rational use of natural resources, geology, hydrology, geoinformatics, and remote sensing. The goal is to prepare highly qualified professionals in these cutting-edge areas.

Practice and Internships

Students undertake academic and industrial internships at field practice bases, general education schools, geological organizations, hydrometeorological departments, and leading industrial enterprises. High-achieving students have the opportunity to study abroad in countries such as Germany, Italy, Japan, China, Russia, and India.

International Study Opportunities

Faculty students have access to fully funded study programs for internships, master's, and doctoral degrees at top international universities. The faculty maintains strong partnerships with the following prestigious institutions:

Moscow State University (Russia)

Xi'an University of Architecture and Technology (China)

Altai State University (Russia)

Kasberg, Patrick & Associates, LP Engineering Consultancy Firm,
Temple, Texas (USA)

Tomsk State University (Russia)

Indian Institute of Technology Roorkee (India)

MASTER'S DEGREE SPECIALIZATIONS

Geography (by object of study)

Hydrology (by object of study)

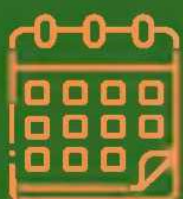

Ecology and Environmental Protection (by sectors)

Environmental Protection
