

3.3 Collaborations and Health Services

3.3.1

Does your university as a body have current collaborations with local, national or global health institutions to improve health & wellbeing outcomes?

The Republic of Uzbekistan provides legislative and budgetary allocations for supplying necessary medical facilities to all its citizens. To provide better health and well-being facilities to all its citizens, government facilitates its hospitals enabled with technology and excellent doctors. Government has categorized these medical facilities as guaranteed, subsidized, and on a payment basis.

Samarkand State University is committed to provide necessary health support to its students, employees, and teachers. It is evident that Samarkand State University is a public institution that does not have its own medical or medical college. However, all staff are having medical cards which are used for medical assistance at government medical facilities.
